

London Councils Climate Programme

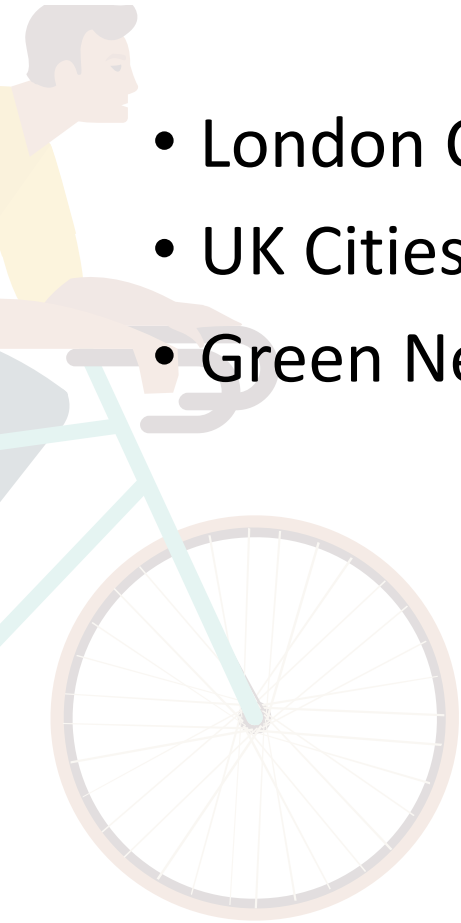

Presentation to London and the Wider South East Forum 4
March 2022

Katharina Winbeck

Overview

- London Councils Climate Programme
- UK Cities Climate Investment Commission
- Green New Deal Recovery Mission

London Councils' climate programme

- Agreed [Joint Statement on Climate Change](#)
- Advocating for local government role, retrofitting support, green investment, transport infrastructure
- Supporting seven major collaborative [programmes](#)
- Developing [green financing](#) model as part of the UK Cities Climate Investment Commission
- Facilitating agreement on data and evidence, including shared approach to [emissions accounting](#) and borough-level consumption emissions [profiles](#)
- Annual climate change [polling](#) of Londoners

London Councils Climate Change Programmes

	Lead boroughs
#1 Retrofit London	LB Enfield and LB Waltham Forest
#2 Low carbon development	LB Hackney
#3 Low carbon transport	RB Kingston and City of Westminster
#4 Renewable power	LB Islington
#5 Consumption emissions	LB Harrow
#6 Green economy	LB Hounslow
#7 Resilient and green	LB Southwark

UK CCIC

Core Cities, London Councils and the Connected Places Catapult have come together to leverage the combined scale of cities to mobilise finance and drive investment in low carbon projects.

UK CITIES 
Climate Investment Commission

A partnership between

#BeTheSolution

Green New Deal

- Joint Recovery Board between Mayor of London and London Councils – one of nine missions
- Tackle the climate and ecological emergencies and improve air quality by doubling the size of London's green economy by 2030 to accelerate job creation for all
- Focus Areas: Built environment, public realm and green foundations
